

CAPILLARYSTM / MINICAPTSM PROTEIN(E)

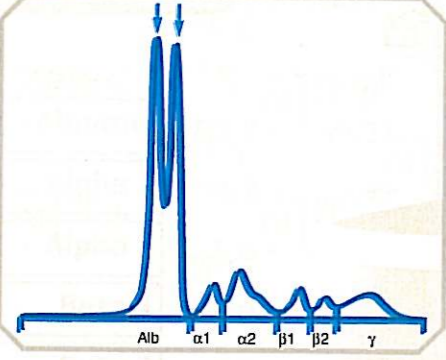

Normal serum

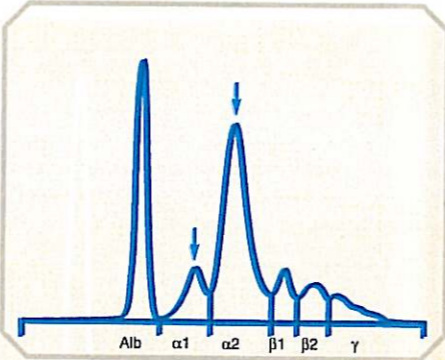

Beta-gamma bridging:
alcoholic cirrhosis

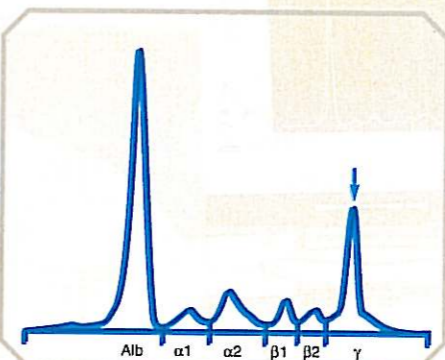

Hypergammaglobulinemia

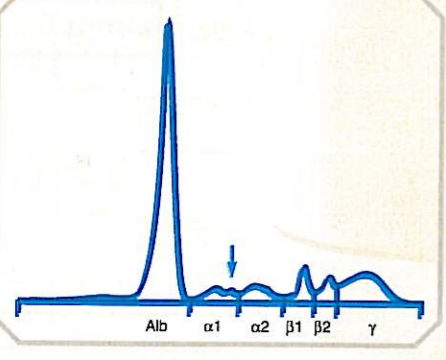

Bisalbuminemia

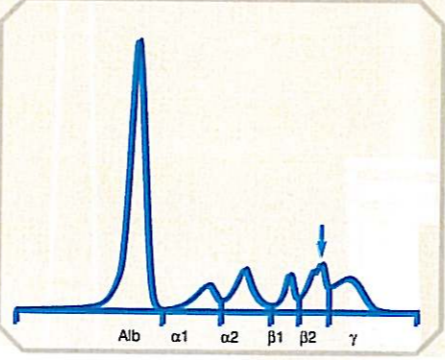

Nephrotic syndrome
(+ Oligoclonal pattern)

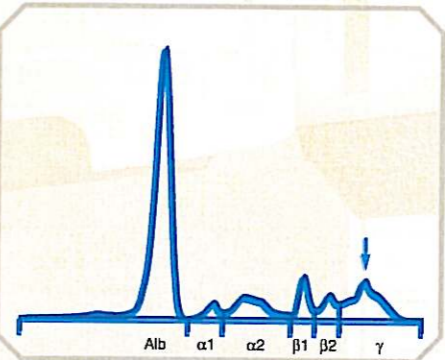

Monoclonal gammopathy

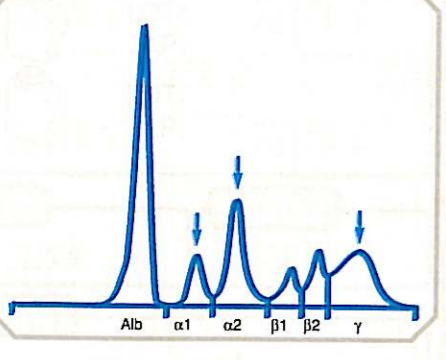

Double alpha1 zone

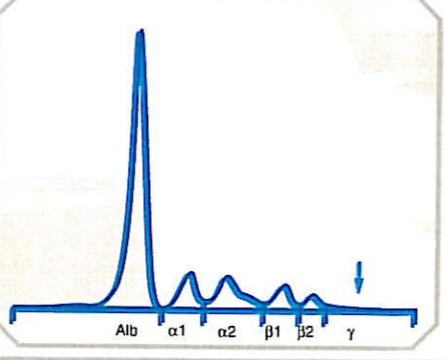

Presence of fibrinogen:
plasma electrophoresis

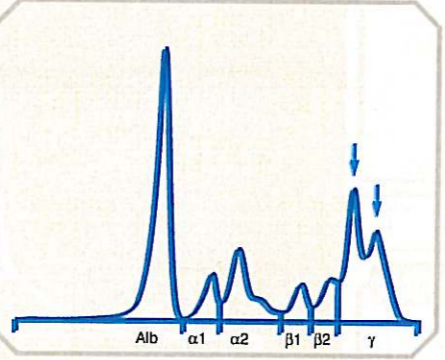

Monoclonal gammopathy

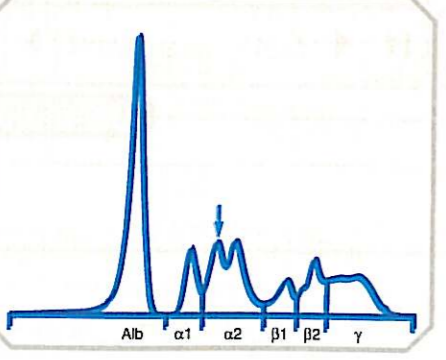

Chronic inflammatory
disease

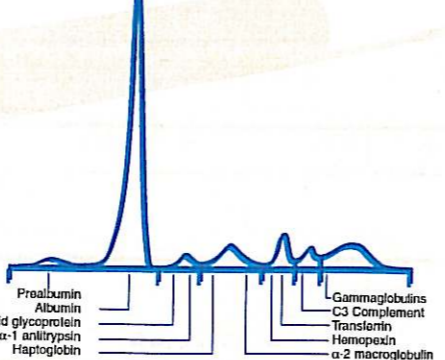

Hypogammaglobulinemia

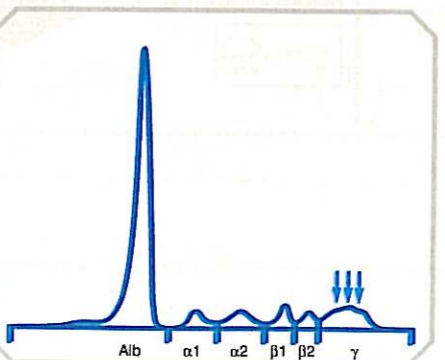

Biclonal gammopathy

I-II haptoglobin
phenotype
(+ Oligoclonal pattern)

Fraction identification

Oligoclonal pattern
